

## **AEC Specialty Vehicles launches to respond to European customer demand for select North-America sourced internal combustion engine vehicles from General Motors**

**St. Catharines, Canada, 4 July, 2023 | New automotive enterprise AEC Specialty Vehicles (AECSV), a subsidiary of AEC Group, formally launches today focused on importing officially a niche volume of General Motors (GM) North America-sourced internal combustion engine vehicles, limited service parts and accessories, responding to demand from individual consumers.**

**AECSV will market and distribute a range of the American company's top models through selected dealerships in European markets. First models available for European customers this month will be the Cadillac Escalade and XT6, Chevrolet Silverado, Tahoe and Suburban, and the GMC Sierra. AECSV intends to expand the portfolio with additional models later this year.**

As a subsidiary of AEC, a global mobility solutions provider active since 1996, AECSV was formed to meet the growing demand for North American vehicles across Europe and to facilitate their import, homologation, and distribution throughout all European markets. AECSV will have the ability to supply official spare parts and accessories to service only the selected models sold starting in fall 2023.

*"The launch of AEC Specialty Vehicles as an agile new player is an incredible opportunity for the AEC group and we are very excited to deliver special niche vehicles to European customers. AECSV combines flexibility with expertise and experience, access to a strong network and state-of-the-art facilities"* comments Andrew Pilsworth, CEO of AEC Group.

For AECSV's full range of selected models, see its 2023 product lineup at <https://aecsv.com/gm-line-up>. To learn more about AECSV, check out [www.aecsv.com](http://www.aecsv.com).

### **About AEC Specialty Vehicles**

AEC Specialty Vehicles (AECSV) was founded in 2023 in St. Catharines, Canada, as a subsidiary of AEC Group, a group of several privately held companies specialized in the development of customized automotive solutions.
