All Chevrolet, GMC and Cadillac models are imported into Europe by AEC Specialty Vehicles without the Super Cruise function activated. The cars could be equipped with the visible hardware of the Super Cruise function (steering wheel, light bar and switches), but the features will not work as this technology is not compatible with European roads. Customers may also get ad hoc messages in-cluster stating the need for an OnStar subscription to make the Super Cruise function available. However, OnStar is not active for these vehicles, making it impossible to access the subscription needed to enable the Super Cruise functionality. Every time ignition is cycled, the system will look for OnStar connection, asking the customer to dismiss this information

B58	Floor mats, color-keyed carpeted first and second row	UBC	2 USB center console charge and data ports
BTM	Keyless start	UBD	2 USB front console charge and data ports
BTV	Remote start	UCB	2 USB 3rd row charge and data ports
C3Q	Sill plates, bright	UEU	Forward collision alert
C49	Defogger, rear-window	UFB	Rear cross traffic braking
CJ2	Air conditioning, tri-zone automatic climate control	UGN	Enhanced automatic emergency braking
CTB	Intersection automatic emergency braking	UKI	Blind zone steering assist
CWA	Rear camera mirror washer	UK3	Steering wheel controls
DCH	Console, floor, power-sliding center	UKM	Enhanced lane keep assist with lane departure warning
DP6	Mirror caps, body-color	UKT	Front pedestrian and bicyclist braking
DRZ	Rear camera mirror	UKZ	Enhanced automatic parking assist
DXR	Mirrors, outside heated power-adjustable	UKM	Enhanced lane keep assist with lane departure warning
FE9	Emissions, federal requirements	UOW	Side bicyclist alert
G86	Differential, mechanical limited-slip	UQS	Audio system feature, Bose® 10-speaker surround with centerpoint
GU5	Rear axle, 3.23 Ratio	URF	11-inch driver information display
HS1	Safety alert seat	URW	17.7-inch diagonal advanced color LCD infotainment display
K7A	Wireless charging	UTJ	Theft-deterrent system
KA1	Seats, heated driver and front passenger	UV2	HD surround vision
KA6	Seats, heated second row	UV6	Head-up display
KC4	Cooling, external engine oil cooler	UVZ	Reverse automatic braking
KI3	Steering wheel, heated	V55	Luggage rack side rails, roof-mounted
KNP	Cooling, auxiliary transmission oil cooler	WTX	Fascia, front
KQV	Seats, heated and ventilated driver and front passenger	XCG	Tires, 275/50R22SL all-season, blackwall
KW5	Alternator, 220 amps	XCQ	Tire, spare P265/70R17 all-season, blackwall
L87	Engine, 6.2L EcoTec3 V8	Z82	Trailer equipment
MHS	Transmission, 10-speed automatic	Z95	Suspension, magnetic ride control

Effective from 01.02.2025 and applicable to model year 2025 vehicles. Prices in EUR.

All Chevrolet, GMC and Cadillac models are imported into Europe by AEC Specialty Vehicles without the Super Cruise function activated. The cars could be equipped with the visible hardware of the Super Cruise function (steering wheel, light bar and switches), but the features will not work as this technology is not compatible with European roads. Customers may also get ad hoc messages in-cluster stating the need for an OnStar subscription to make the Super Cruise function available. However, OnStar is not active for these vehicles, making it impossible to access the subscription needed to enable the Super Cruise functionality. Every time ignition is cycled, the system will look for OnStar connection, asking the customer to dismiss this information
